

| Pos. | Artikelbeschreibung   | Description of item     | Artikel Nr./Item No. |
|------|-----------------------|-------------------------|----------------------|
| 3    | Getriebemotor         | Gear motor              | E0905060031          |
| 4    | Magnetron             | Magnetron               | E0905990002          |
| 5    | Schütz                | Contactora              | E0905040001          |
| 6    | Relais, 250V, 8A      | Relay 250V, 8A          | E0905030001          |
| 8    | Schalter              | Switch                  | E0905020001          |
| 12   | Zugentlastung         | Strain relief           | E0905140009          |
| 13   | Lüftermotor           | Fan motor               | E0905060026          |
| 14   | Lüfterflügel          | Fan blade               | E0909010078          |
| 15   | Kondensator           | Condenser               | E0905100001          |
| 17   | Kühlkörper            | Heat sink               | E0905030004          |
| 18   | Relais                | Relay                   | E0905030003          |
| 19   | Heizkörper            | Heating element         | E0906010067          |
| 20   | Transformator         | Transformer             | E0905080001          |
| 21   | Umrichter             | Frequency converter     | E0905080003          |
| 23   | Scharnier, rechts     | Right hinge             | E020101030009        |
| 25   | Fuß, höhenverstellbar | Base, height adjustable | E0909010002          |
| 26   | USB Anschluss         | USB Port                | E0905130024          |
| 28   | Lüfter                | Fan                     | E0905990040          |
| 30   | Druckknopf            | Button knob             | E0905020007          |
| 32   | Platte                | Plate                   | E0904010024          |
| 37   | Bedienfeld            | Control panel           | E0905160011          |
| 38   | Scharnier, links      | Left Hinge              | E020101030008        |
| 39   | Filter                | Filter                  | E0905990048          |
| 41   | Mikroschalter         | Micro switch            | E0905020013          |
| 42   | Temperaturfühler      | Temperature sensor      | E0905070016          |
| 43   | Klemmleiste           | Terminal block          | E0905990008          |
| 44   | Sicherung             | Fuse                    | E0905990005          |
| 46   | Hauptschalter         | Main switch             | E0905090005          |
| 47   | Relais 24VDC          | Relay 24VDC             | E0905030002          |
| 49   | Schalter              | Switch                  | E0905020005          |
|      |                       |                         |                      |
|      |                       |                         |                      |
|      |                       |                         |                      |
|      |                       |                         |                      |
|      |                       |                         |                      |
|      |                       |                         |                      |
|      |                       |                         |                      |
|      |                       |                         |                      |

Snackjet 200  
Artikel-Nr.: 120751
